Corentin D'haeyere

Software Engineer · Brussels, Belgium

nitroc.xyz
linkedin.com/in/corentin-d
github.com/nitroc-dev

Software engineer who builds web and mobile products end to end, from the data model to the App Store release. At Eachstapp I work on a B2B SaaS used by 7 mediation services, React Native apps in sports and travel, and the C#/.NET APIs behind them.

Experience

Software Engineer · Eachstapp — Oct 2024 – Present

TypeScript, React, React Native, Expo, C#/.NET, EF Core, SQL Server, PostgreSQL, Azure

- Build and run a B2B SaaS for mediation services, now used by 7 services.
- Ship React Native apps (bare and Expo) in sports and travel, owning App Store and Google Play releases.
- Make architecture and data-model decisions on new features; deploy and maintain production systems.
- Work directly with clients on requirements, demos and support.

Software Engineer Intern · Eachstapp — Jan 2024 – May 2024

TypeScript, React, React Native

- Delivered features on client web and mobile projects in TypeScript, React and React Native.

Education

Bachelor in Business Computing — 2021 – 2024

Institut Paul Lambin (Haute École Léonard de Vinci), Brussels

- Three-year professional bachelor (Informatique de gestion): programming, databases, web development, software engineering.
- Team projects including a Stack Overflow clone in JavaScript, HTML and CSS.
- Final-year internship at Eachstapp (Jan – May 2024), hired as a software engineer afterwards.

Skills

Languages	TypeScript, JavaScript, C#, SQL, HTML/CSS, Rust (learning), Java, C
Frameworks	React, Next.js, React Native, Expo, .NET, EF Core, Tauri
Tools	PostgreSQL, SQL Server, Azure, Vercel, Docker, Git, GitHub Actions

Languages

French (native) · English (professional) · Dutch (basic)

Outside work

Runs a homelab: TrueNAS SCALE, Traefik and two Raspberry Pis in a 3D-printed 10" rack.
